

DUST SEAL

NEW PRODUCT RELEASE

THE DUST BUSTER.

With the rise in popularity of dual cab utes used for touring, keeping gear in the back dust free has become a major headache for 4WDers. Aeroklas Australia has developed and fully engineered a dust seal prevention kit which helps reduce the amount of dust ingress into your tub, Giving you the gear protection of a wagon, while keeping the practicality of a Ute.

Compatible with Aeroklas Canopy & Hard Lids
(Only Available for Ford PX Ranger)

SPECIFICATIONS

- 100% DIY installation (Between 30-40 minutes)
- Constructed with quality materials and use of manufacturing spec rubber.
- Australian designed specifically for the Ford PX Ranger and soon the Mazda BT50, these kits have undergone extensive testing to significantly reduce the amount of dust in the back of your tub.
- Significantly reduces water entering the tub.
- Recommended to be used with either an under-rail liner or no bed liner the rubber creates a seal between the tailgate and tub body.
